

Setup ipad IOS7

Volg de vinger

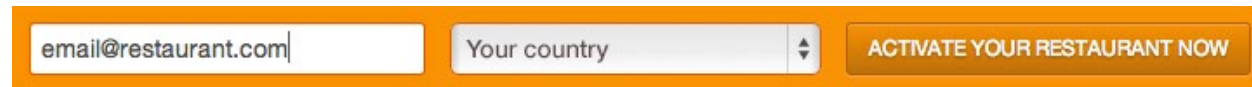

1. Vereisten

Voor u begint met de installatie van uw iPad, zorg ervoor dat:

- » U een draadloze internet verbinding heeft (Wifi) of een 3G kaart)

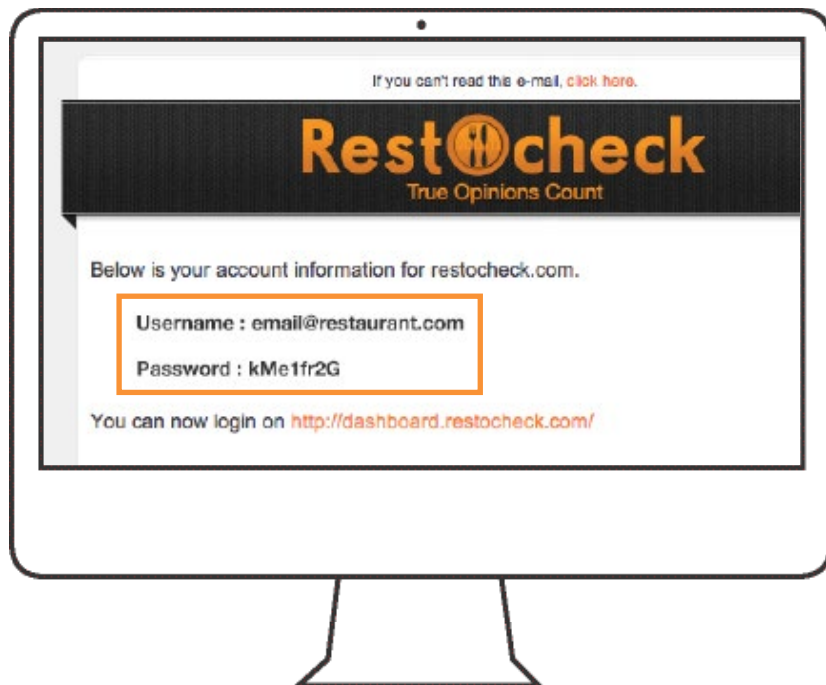

We verkiezen Wifi omdat dit sneller en stabiel is dan 3G. 3G iPads zijn ook duurder.

- » U uw Restaurant hebt geactiveerd (www.restocheck.com)

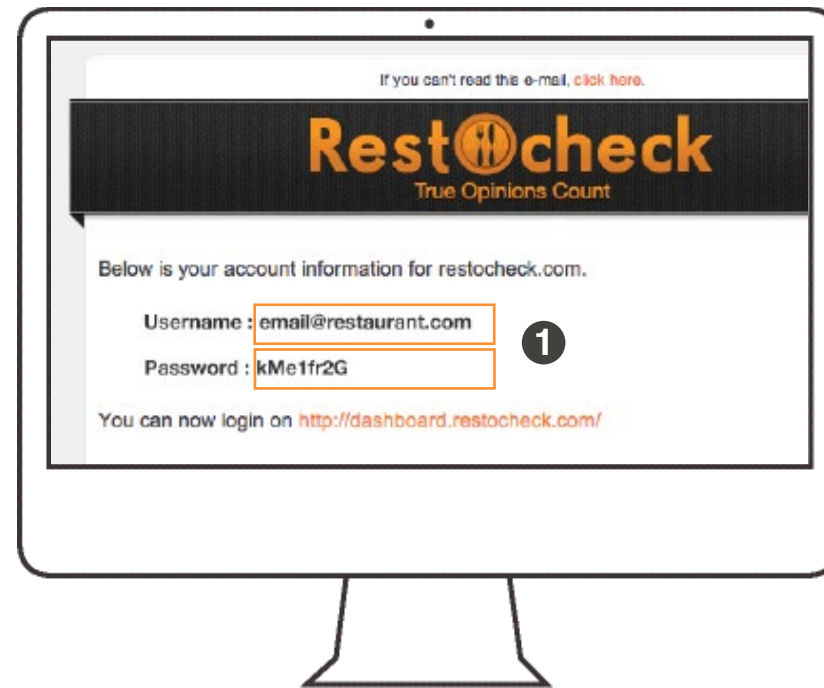

The image shows a horizontal orange bar containing a registration form. On the left is a text input field with the placeholder 'email@restaurant.com'. To its right is a dropdown menu labeled 'Your country'. On the far right is an orange button with the text 'ACTIVATE YOUR RESTAURANT NOW'.

- » U hebt een email gekregen van RestOcheck waarmee u kan aanloggen in het Dashboard en de Tablet Applicatie

TIP: Schrijf uw RestOcheck Gebruikersnaam en Paswoord op op een kaartje dat u veilig kan bewaren Kan

TIP: Bewaar uw inlog gegevens op een veilige plaats!

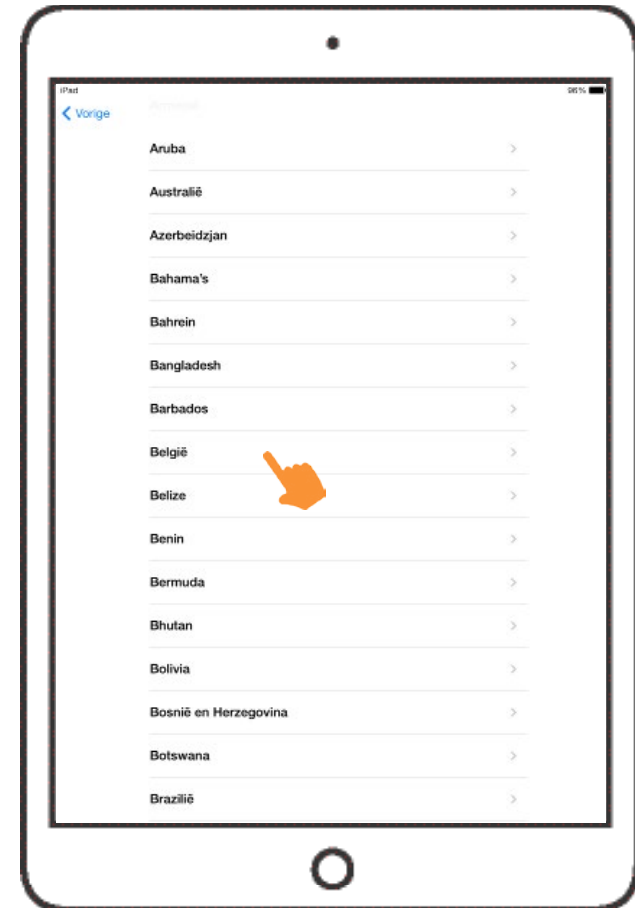

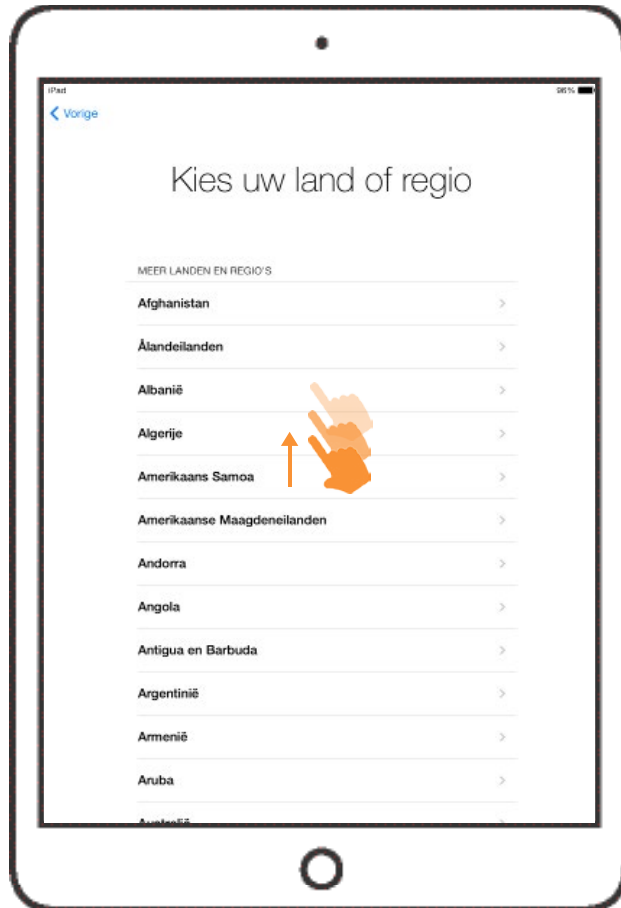

2.2 Knoppen

3. Instellen van de eerste iPad

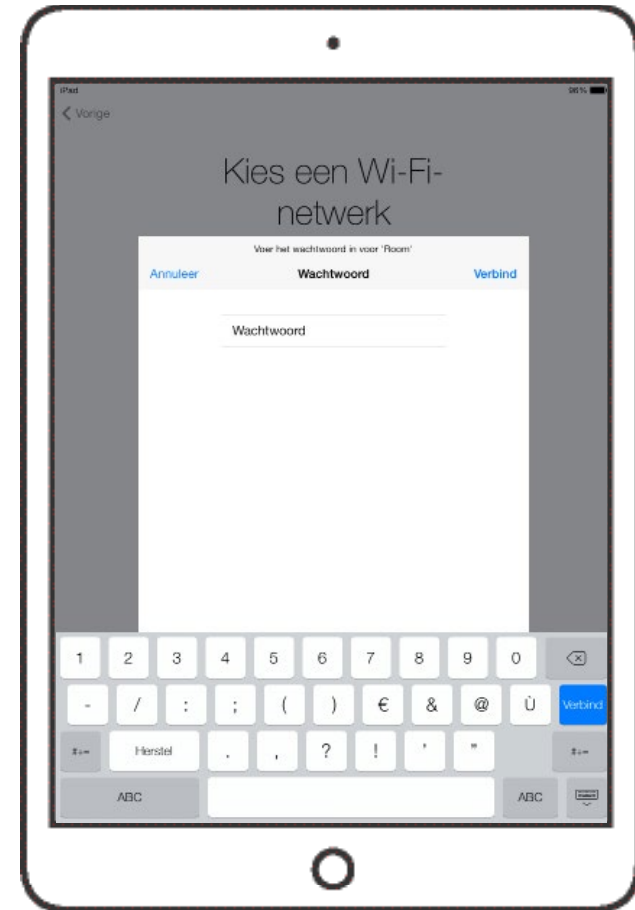

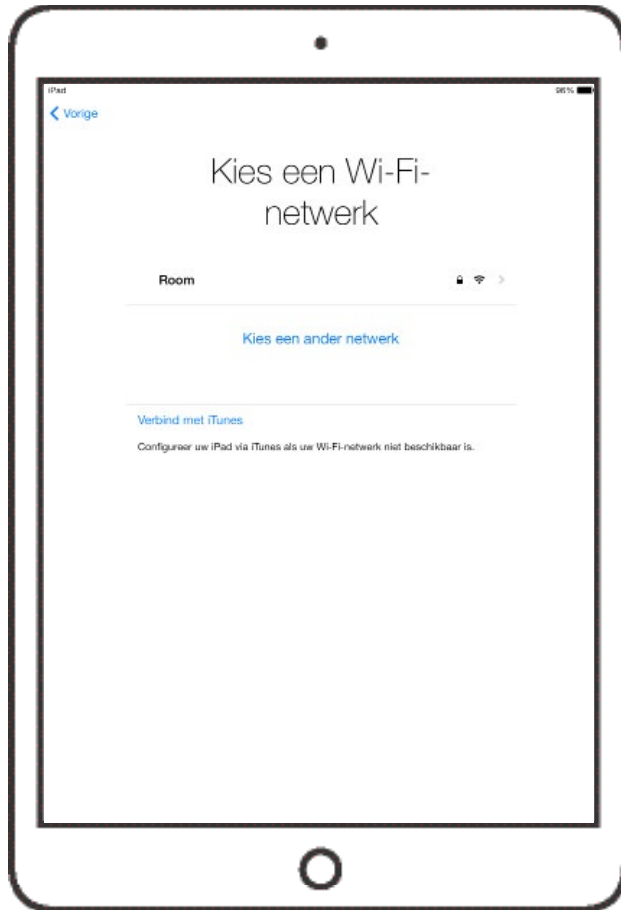

3.1 Start

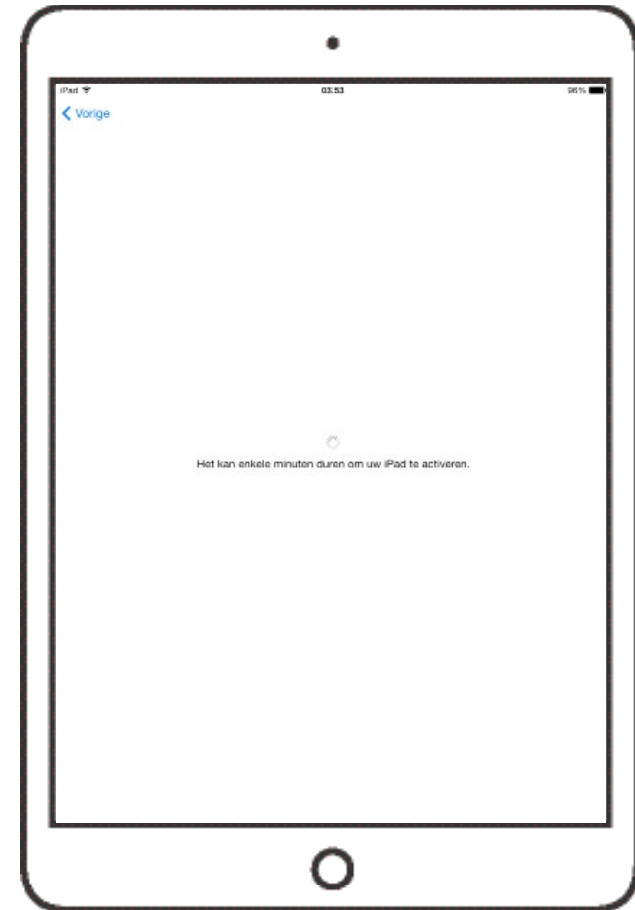

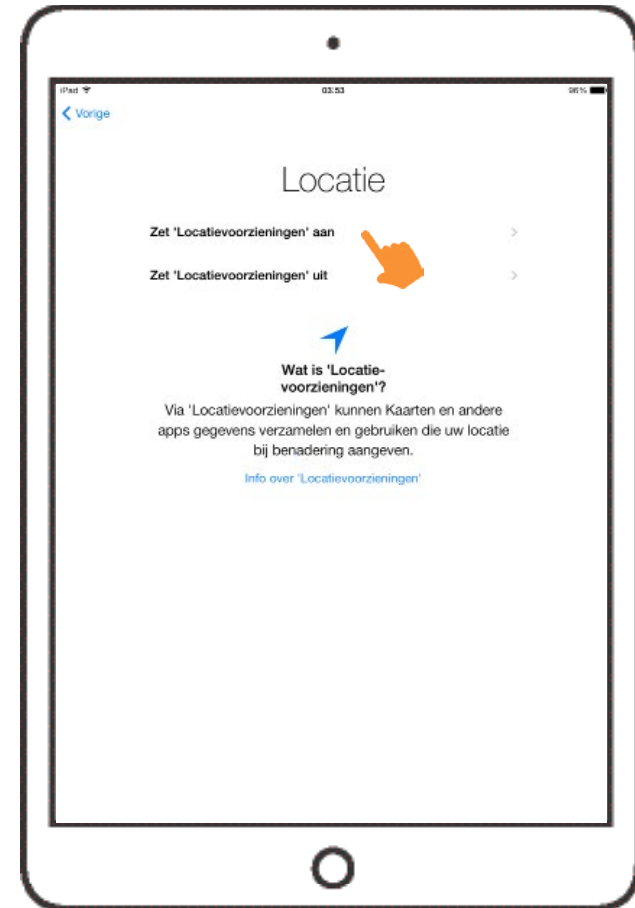

U heeft een draadloze internet verbinding nodig om verder te gaan

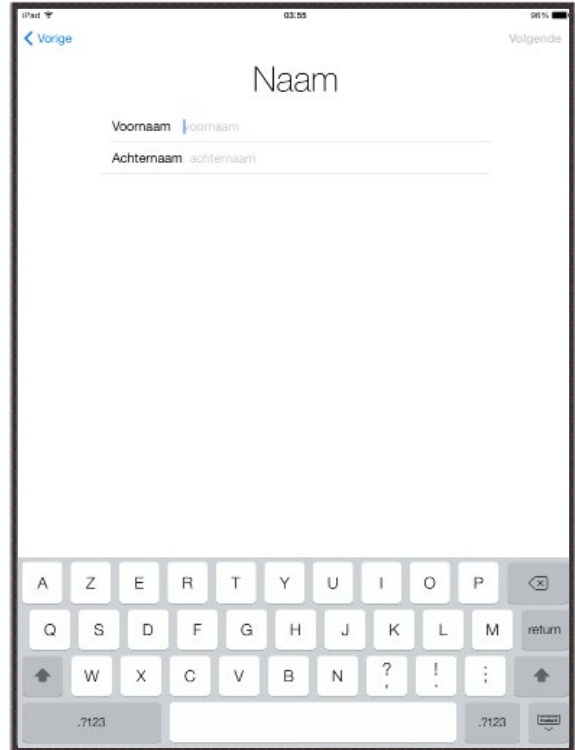

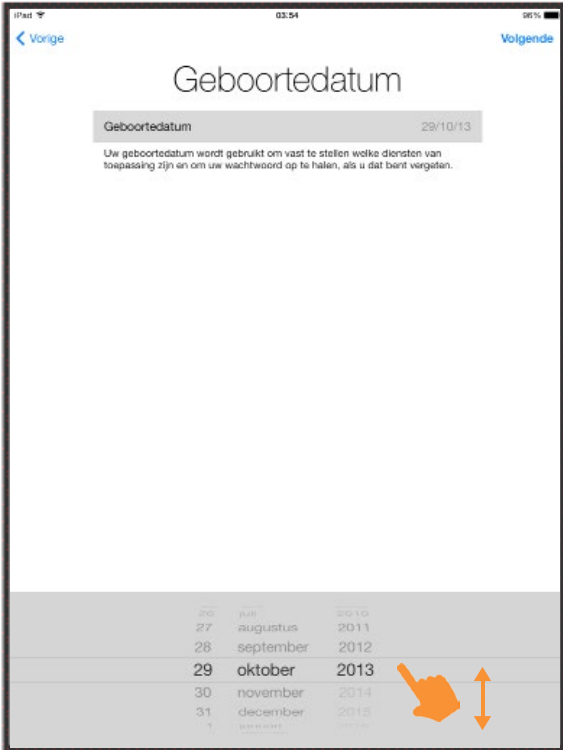

U kan enkel beoordelingen ontvangen van uw Gasten als u Locatievoorzieningen aan zet.

U heeft een Apple ID nodig om RestOapp te downloaden en uw iPad te beveiligen. Wij raden u aan om hiervoor hetzelfde email adres te gebruiken als de RestOcheck ID
